

Specification Sheet for: Pinfile Cabinet

Pin and Post Style

Models: MP24, MP30, MP48

- The cabinet is ***Self-Supporting for Maximum Safety!*** Front of the cabinet rolls on casters, with a thoroughly designed zero tolerance mechanism allows the cabinet to glide open and closed with finger-tip ease and complete stability. The Pinfile can stand alone, no need to bolt to structure like hinged front systems.

- A tumbler lock – Standard with cabinet, provides document protection and security.

Specification Sheet: Pinfile Cabinet – Pin & Post Style

- Unique lid design which keeps the lid safely open, yet easy to operate. Documents are protected with heavy duty seals around lid and along the front and back of the Pinfile.

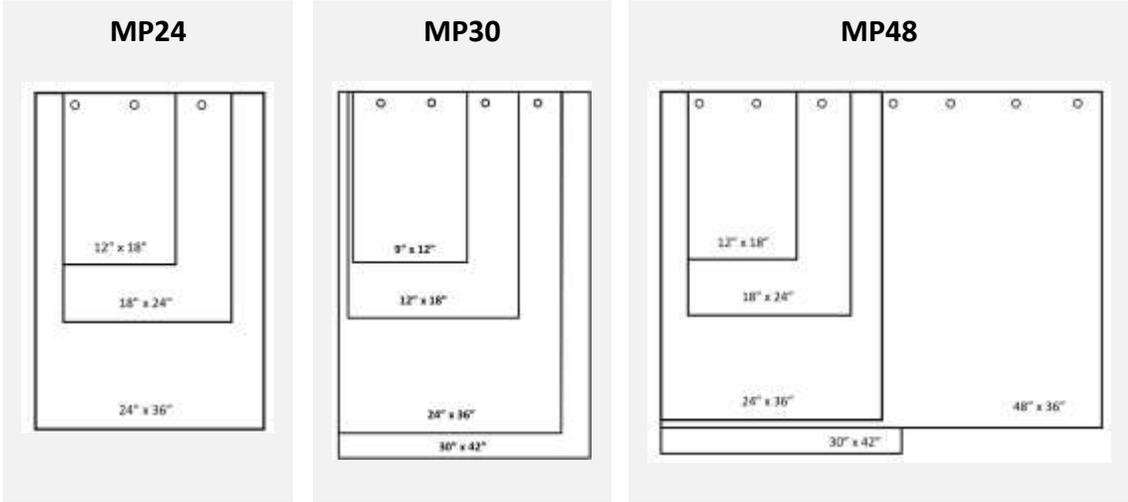

- Filing Pins are crafted into a rigid structure allowing for maximum durability.

- Buttons on the face of the cabinet provide a convenient place to temporarily store documents.

- Multiple document sizes can be filed in the same cabinet

Specification Sheet: Pinfile Cabinet – Pin & Post Style

- Index Cards provided with the cabinet create maximum organization.

- Active capacity of the cabinet is 1,200 drawings.
- The cabinet is constructed of 20 gage CRS. The lid is 18 gage CRS, the bottom and reinforcements are made of 14 and 16 CRS gage CRS.
